

# ARIZONA OFFICE OF TOURISM

## VISITOR GUIDANCE

### **FOR VISITORS- The Arizona Department of Health Services recommends the following steps be taken by visitors:**

- Stay home if sick.
- Protect yourself while visiting.
  - Wear masks in public settings.
  - Avoid touching your eyes, nose, and mouth with unwashed hands.
  - Avoid close contact (within 6 feet) with others.
  - Cover your cough or sneeze with a tissue or your sleeve (not your hands) and immediately throw the tissue in the trash.
  - If possible, use touchless payment (pay without touching money, a card, or a keypad). If you must handle money, a card, or use a keypad, use hand sanitizer right after paying.
  - After leaving an establishment, use hand sanitizer that contains at least 60% alcohol. When you get home or back to your lodgings, wash your hands with soap and water for at least 20 seconds.

### **FOR FULLY VACCINATED INDIVIDUALS - The Arizona Department of Health Services recommends the following steps be taken by visitors:**

- People are considered fully vaccinated two weeks after their second dose in a 2-dose series, or two weeks after a single-dose vaccine. If you do not meet these requirements, you are NOT fully vaccinated.
- When you are fully vaccinated, you can start doing some things that you stopped doing because of COVID-19. These activities include:
  - Gathering in any setting without wearing a mask or staying 6 feet apart, except where required by federal, state, local, tribal, or territorial laws, and regulations.
    - Fully vaccinated persons must still follow local business and workplace guidance regarding masks and physical distancing.
  - Traveling in the United States without getting tested before or after travel, or self-quarantining after travel.
  - For international travel, consult [guidance for your destination](#). You do not need to get tested before leaving the United States, unless your destination requires it.
  - If you have been around someone who has COVID-19, you do not need to stay away from others or get tested unless you have symptoms.

### **THINGS TO NOTE**

- There are no current travel restrictions for any individuals visiting Arizona - additional information can be found [HERE](#).
- The Centers of Disease Control and Prevention (CDC) has new guidelines for inbound international air travel. For more information check [HERE](#).
- [Per the CDC](#), masks are required on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States and in U.S. transportation hubs such as airports and stations.
- If you are driving to Arizona or through the state, please note that many tribal nations have travel restrictions in place for visitors. Consult the individual tribal nation's website for specific information.
- If you are planning on visiting a specific attraction, recreation area, etc. please make sure you reach out to the organization directly to verify their operations schedule.
- Select low-traffic locations and times. Visit less-traveled locations during off-peak hours to avoid potential crowding.
- COVID-19 testing is available around the state. For testing locations check [HERE](#).
